

RUBY LAKE HYGIENIC FIBER FACE MASK BENEFITS

Ruby Lake's Hygienic Fiber Face Mask brings the highest quality fabrics and technology to a lightweight and convenient hygiene mask. The Ruby Lake mask's primary function is to be used as a hygiene mask to improve public hygiene and protect those around you

The Ruby Lake mask fabric is easy to wash and quick to dry, and boasts the OEKO-TEX 100 rating, which means it **will not react with skin** and features **no chemical finish**. The mask will not affect the skin during wear.

Safe to wear

- Holds an OEKO-TEX certification, assuring that the yarn is free of any chemical treatments and is guaranteed to be non-allergenic in contact with skin.
- Polyamide 6.6 yarn is softer and offers a superior touch compared to polyester or cotton, and features advanced durability and quality.
- Easy to wash and dries very quickly.

Ruby Lake mask is made with an advanced polyamide yarn that features **bio ceramics** woven directly into the yarn. Bio Ceramics provide **far-infrared** benefits to the wearer by **reflecting the FIR portion of their body heat back to the body**.

Superior Fabric

- Made with advanced 6.6 polyamide with technological benefits built directly into the fabric.
- The fabric features a bio ceramic and mineral element built directly into the yarn, which is able to provide far-infrared benefits to the wearer.

- In fine threads, SiO₂ (Silicon Dioxide), as a highly dispersible silica fume created through chemistry and heat, is a sub-micron amorphous silica particle.
- Technical specs on fabric weave density:

Filament Count: 1200 filaments/mm²

Fabric Density: 180g/m²

Far-Infrared Benefits

- Far-infrared energy can offer many positive benefits to the wearer's skin and affected tissues.
- By wearing your mask, you are receiving a 'low-and-slow' FIR treatment for your face and skin.
 - i. Increased Collagen Synthesis & Production in covered areas.
 - ii. Increased Skin Smoothness & Elasticity.
 - iii. Improved response to Acne & better general skin health.

Hygiene

- Fully washable polyamide fiber is extra soft, durable, and easy to clean.
- Quick-Dry for ease and convenience.
- Protect those around you by improving personal hygiene.
